SKILLS

Technical skills: Python, Java, Penetration Testing, Intrusion Detection, Cryptography, Firewall Management

Soft skills: Communication, Team Work, Problem Solving, Creative, Work ethic

Languages: Hindi, English

Hobbies: Reading books, painting, coding

OBJECTIVE

A highly motivated and results-driven individual seeking opportunities to leverage my skills in Ethical hacking to contribute to Cyber security while growing professionally. Eager to bring my knowledge in Coding and passion for innovation to a dynamic and challenging environment.

EDUCATION

| | |
|------|---|
| 2021 | High school M. G. Public School 94.8% |
| 2023 | Senior secondary M. G. Public School 90.2% |
| 2027 | B. Tech S. D. College of Engineering and Technology Pursuing |

PROJECTS

Cyber security Analyst

— Developed a host-based intrusion detection system using Python, Implemented an end-to-end encrypted chat application

CONFERENCE

Cyber Security Professional Conference (CSPC) – August 2024
— Attended sessions on network security, cloud security and incident response.
— Participated in hand-on security labs and ethical hacking challenges.

INTERNSHIP AND TRAININGS

Internship

Ethical Hacking
Internship Studio-Online
5-10-24 to 5-11-24

I had completed the below mentioned points:

- Conducting thorough penetration tests on web applications, networks, and systems to identify vulnerabilities and weaknesses.
- Assessing the security of wireless networks, and identifying vulnerabilities in Wi-Fi and Bluetooth implementations.

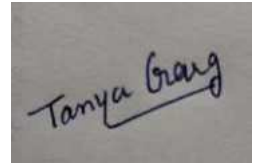

Training

Generative AI

Google Cloud Boost program- Online

28-07-24 to 28-08-24

I had learned about Gemini for Application Developers, Gemini for Cloud Architects, Gemini for Network Engineers and many more courses.

A square image showing a handwritten signature in black ink on a light-colored background. The signature is written in a cursive style and reads "Tanya Garg".
